PROPERTY DESCRIPTION

Be at the top of the world and overlook the coastline...and talk about a vantage point for sunsets!

This newer custom home has taken advantage of the beautiful Pacific Ocean views by having a large lanai that stretches the entire length of the front of the house. The surfer in you can watch the waves come in at Lyman's Bay and see the cruise ships and private yachts in Kona Bay. In winter, whale watching is a great pass-time from this lanai.

The home, itself, is the definition of "pride of ownership"! The Sellers had the home built and it's never been on the market before.

A large open kitchen with an island for gourmet creations is the center of the home. The kitchen features solid surface counter tops, lots of cabinets, and extras like an appliance garage and prep sink.

The kitchen, dining room and living room are a modified great room style with an architectural feature by the stairwell giving definition to each room, and still providing the openness of a great room.

You wake in the master bedroom to the ocean view. A spacious master bath has a soaking tub, walk-in closet and expansive counter tops. Tons of storage which is a premium in Hawaiian homes.

The den/office is conveniently located near the living area and can be used as an additional bedroom or guest room.

The downstairs hideaway is a 650 +/- square foot, partially finished area would make a splendid workout room, workshop, or finish it off for more living space! The living areas are all on one level with the workout room and 2-car garage downstairs.

The top of the driveway has recently been modified for ease in turning around in your vehicles.

Location Location Location. The Walua walking path is just 3 blocks away.
